

## Specification

### HERCOLYN D

**Product Number: 772-3158**

**CAS Number: 8050-15-5**

**EC Number: 232-476-2**

---

| <b>Characteristic</b>   | <b>Specification</b>                    |
|-------------------------|-----------------------------------------|
| <b>Appearance</b>       | Colorless to pale yellow viscous liquid |
| <b>Odor</b>             | Balsamic woody amber peppery            |
| <b>Assay by GC</b>      | 95.0 % min.                             |
| <b>Relative Density</b> | 1.018 at 25 °C                          |
| <b>Refractive Index</b> | 1.5100 - 1.5200 at 20 °C                |
| <b>Acid Value</b>       | 2 - 6 mg KOH/g max.                     |

---

#### **Additional Information**

|                    |                                                                                                                                                                                    |
|--------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Shelf Life</b>  | 12 months (closed up)                                                                                                                                                              |
| <b>Flash Point</b> | 160 °C                                                                                                                                                                             |
| <b>Storage</b>     | Store in cool place. Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. |
| <b>Version</b>     | 5.0 - Apr, 2024                                                                                                                                                                    |
