

PFAS Free Declaration

To Whom It May Concern:

O'Laughlin Corporation Limited has a strict policy to control the production we have conducted risk assessments on our products including the contact materials.

We hereby confirm that we do not intentionally use any PFAS-based materials in the manufacturing of our products, nor in our packaging or ancillary materials (such as containers, liners, sealing components).

Regarding the final product, based on our raw material declarations and supplier data, the product listed below is manufactured without the intentional addition of PFAS and we have no evidence of PFAS contamination above applicable trace levels.

Please note that we do not currently conduct routine analytical testing for PFAS unless specifically required by customer contract or regulation. If such testing is required for your application, we can arrange for third-party analysis on a case-by-case basis.
